HIGHLIGHTS

Experienced product manager building B2B products - from early employee at two hyper-growth startups (Highspot: 300% growth YoY; Apptio: 250% growth YoY) to owning Amazon's \$4B Ads API platform operating across 20 geographies. Currently advising companies on GenAI strategy, AI product development, and AI evals.

WORK HISTORY

Principal	Practical GenAI, Kirkland, WA	2024 - Present
------------------	-------------------------------	-----------------------

- Identified high-value conversational AI use cases to drive a 30% increase in annual revenue for a healthcare startup.
- Architecting GenAI evaluation solution including [golden dataset generation](#), rubrics, and dashboards to reduce evaluation cycles by 40%.
- Accelerated product delivery with AI-assisted development tools, improving product development cycles by 40%.

Sr Product Manager Technical	Amazon, Seattle, WA	2021 - 2023
-------------------------------------	---------------------	--------------------

- Owned API platform serving 20 countries, coordinating with ops, engineering, and partner teams to enable \$4B annual revenue and 30%+ YoY growth.
- Enhanced Amazon search ad auction ML algorithm to improve advertising match rate by 10%.
- Led end-to-end launch of major API version - including developer migration tools, SDK, and enablement artifacts - driving 12% YoY adoption increase.
- Directed 2 engineering teams and coordinated 7+ cross-functional teams (engineering, operations, sales, marketing) in API-First journey across 20 countries and 20+ Amazon Ad technology services.

Sr Product Manager Technical Amazon (via Unify), Seattle, WA **2021 - 2021**

- Led three-year planning of a financial data traceability solution for the next-generation finance and tax application platform for Amazon FinTech.
- Recouped USD 100MM+/yr tax obligation by creating a new financial traceability solution.

Product, Principal Highspot, Seattle, WA **2016 - 2020**

- Developed machine learning solution predicting seller quota attainment, and seller effectiveness enabling 98% customer renewals and 135% NDR for 3 years.
- Unlocked faster time-to-value through streamlined customer onboarding solutions, enabling 300% YoY customer growth with high CSAT (4.8+).
- Established operational product metrics and led weekly reviews, enabling data-driven prioritization that accelerated feature adoption and reduced churn.
- Built the first data engineering team, enabling self-service analytics and operational reporting across product, engineering, sales, and customer success, improving cross-functional decision velocity by 30%.

Services Product Manager ServiceNow, Kirkland, WA **2015 - 2016**

Enabled 1,500+ ServiceNow professional services partner ecosystems to deliver new ServiceNow Financial Management (FM) and Project Portfolio Suite (PPS) applications.

Principal Product Manager CA Technologies, Bellevue, WA **2013 - 2015**

Launched Executive Playbook, a mobile-first strategic decision-making product, helping senior executives manage complex digital business transformation programs.

Product Manager Apptio, Bellevue, WA **2010 - 2013**

Created a new IT Planning product that delivered substantial efficiency gains to customers by reducing the annual technology planning process by an average of 40%.
